

**SECTION 1: Identification**

**1.1. Product identifier**

Product form : Mixture  
Trade name : CLEAR HI-GLOSS ADDITIVE  
Type of product : Coating  
CAS-No. : mixture  
Product code : 904-001  
Formula : na  
Product group : Trade product

**1.2. Recommended use and restrictions on use**

No additional information available

**1.3. Supplier**

Dura Technologies, Inc.  
2720 South Willow Avenue #A  
Bloomington, CA 92316

909-546-1162  
ChemTrec US: 800.424.9300  
ChemTrec Int: +1 70 3527 3887

**1.4. Emergency telephone number**

Emergency number : ChemTrec US: 800.424.9300 Int: +1 70 3527 3887

**SECTION 2: Hazard identification**

**2.1. Classification of the substance or mixture**

Classification (GHS CA)

Flammable liquids Category 2 H225 Highly flammable liquid and vapour

Full text of H statements : see section 16

**2.2. GHS Label elements, including precautionary statements**

GHS CA labeling

Hazard pictograms (GHS CA) :

Signal word (GHS CA)

: Danger

Hazard statements (GHS CA)

: H225 - Highly flammable liquid and vapour

Precautionary statements (GHS CA)

: P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
P233 - Keep container tightly closed.  
P240 - Ground/bond container and receiving equipment.  
P241 - Use explosion-proof electrical/ventilating/lighting equipment  
P242 - Use only non-sparking tools.  
P243 - Take action to prevent static discharges.  
P280 - Wear protective gloves/protective clothing/eye protection/face protection.  
P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.  
P370+P378 - In case of fire: Use media other than water to extinguish.  
P403+P235 - Store in a well-ventilated place. Keep cool  
P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation

**2.3. Other hazards**

No additional information available

**2.4. Unknown acute toxicity (GHS CA)**

No data available

# CLEAR HI-GLOSS ADDITIVE

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

### SECTION 3: Composition/Information on ingredients

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

| Name                        | Chemical name / Synonyms                                                                                                                                                                                                                                                                     | Product identifier     | %      | Classification (GHS CA) |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|--------|-------------------------|
| Proprietary Resin           | POLYMER                                                                                                                                                                                                                                                                                      | (CAS-No.) TRADE SECRET | <= 55  | Not classified          |
| styrene, inhibited          | benzene, ethenyl- / cinnamene / phenylethylene / styrene / styrene, monomer / styrol / vinylbenzene                                                                                                                                                                                          | (CAS-No.) 100-42-5     | <= 36  | Flam. Liq. 3, H226      |

Liq. 2, H225      |
| cobalt(II) 2-ethylhexanoate | 2-ethylhexanoic acid cobalt salt / CO 12 / cobalt 2-ethylhexoate / cobalt bis(2-ethylhexanoate) / cobalt octoate / cobaltous 2-ethylhexanoate / cobaltous octoate / Environmentally hazardous substance, solid, n.o.s. / hexanoic acid, 2-ethyl-, cobalt(2+) salt / NL 49P / NL 51P / NL 51S | (CAS-No.) 136-52-7     | <= 0.9 | Not classified          |

Full text of hazard classes and H-statements : see section 16

### SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

- First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell. Allow affected person to breathe fresh air. Allow the victim to rest.
- First-aid measures after skin contact : Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: wash thoroughly for five minutes. seek medical attention. Get medical advice/attention. Specific treatment (see seek medical attention. on this label). Rinse skin with water/shower. Remove/Take off immediately all contaminated clothing.
- First-aid measures after eye contact : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: SEEK IMMEDIATE MEDICAL ATTENTION. Get medical advice/attention.
- First-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Call a poison center/doctor/physician if you feel unwell.
- First-aid measures general : Never give anything by mouth to an unconscious person. Suspected of causing cancer. IF exposed or concerned: Get medical advice/attention.

#### 4.2. Most important symptoms and effects (acute and delayed)

- Symptoms/effects : Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure. May cause genetic defects. Causes damage to organs.
- Symptoms/effects after inhalation : May cause respiratory irritation. Danger of serious damage to health by prolonged exposure through inhalation. Harmful if inhaled.
- Symptoms/effects after skin contact : Causes skin irritation.
- Symptoms/effects after eye contact : Causes serious eye irritation.
- Potential Adverse human health effects and symptoms : Harmful if inhaled.

#### 4.3. Immediate medical attention and special treatment, if necessary

- Other medical advice or treatment : Treat symptomatically.

### SECTION 5: Fire-fighting measures

#### 5.1. Suitable extinguishing media

- Suitable extinguishing media : Sand. Water spray. Dry powder. Foam. Carbon dioxide.

#### 5.2. Unsuitable extinguishing media

- Unsuitable extinguishing media : Do not use a heavy water stream.

#### 5.3. Specific hazards arising from the hazardous product

- Fire hazard : Highly flammable liquid and vapour.

# CLEAR HI-GLOSS ADDITIVE

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

- Explosion hazard : May form flammable/explosive vapor-air mixture.  
Reactivity in case of fire : No reactivity hazard other than the effects described in sub-sections below.

### 5.4. Special protective equipment and precautions for fire-fighters

- Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.  
Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

- General measures : Remove ignition sources. Use special care to avoid static electric charges. No open flames. No smoking.

### 6.2. Methods and materials for containment and cleaning up

- For containment : Dam up the liquid spill. Contain released product, pump into suitable containers.  
Methods for cleaning up : Take up liquid spill into absorbent material. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. Notify authorities if product enters sewers or public waters.  
Other information : Dispose of materials or solid residues at an authorized site.

### 6.3. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection"

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

- Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. No open flames. No smoking. Use only outdoors or in a well-ventilated area. Avoid breathing DUST, FUMES, MIST, OR VAPORS. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Eliminate all ignition sources if safe to do so. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Ground/bond container and receiving equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Flammable vapors may accumulate in the container. Use explosion-proof equipment. Wear personal protective equipment.  
Hygiene measures : Wash HANDS thoroughly after handling. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.  
Additional hazards when processed : Handle empty containers with care because residual vapors are flammable.

### 7.2. Conditions for safe storage, including any incompatibilities

- Technical measures : Proper grounding procedures to avoid static electricity should be followed. Use explosion-proof electrical, ventilating and lighting equipment. Ground/bond container and receiving equipment.  
Storage conditions : Keep only in the original container in a cool, well ventilated place away from : HEAT SPARKS OR OPEN FLAMES. Keep in fireproof place. Store in a well-ventilated place. Keep cool. Keep container tightly closed.  
Incompatible products : Strong bases. Strong acids.  
Incompatible materials : Sources of ignition. Direct sunlight. Heat sources.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

| styrene, inhibited (100-42-5) |                       |                                                           |

### 8.2. Appropriate engineering controls

Appropriate engineering controls : Ensure exposure is below occupational exposure limits (where available). Ensure good ventilation of the work station.

Environmental exposure controls : Avoid release to the environment.

### 8.3. Individual protection measures/Personal protective equipment

#### Personal protective equipment:

Avoid all unnecessary exposure.

#### Hand protection:

Wear protective gloves.

#### Eye protection:

Chemical goggles or safety glasses. Safety glasses

#### Skin and body protection:

Wear suitable protective clothing

#### Respiratory protection:

Wear appropriate mask

| Decomposition temperature                   | : No data available                  |
| Flammability (solid, gas)                   | : Highly flammable liquid and vapour |
| Vapor pressure                              | : No data available                  |
| Vapor pressure at 50 °C                     | : No data available                  |
| Relative density                            | : $\leq$                             |
| Specific gravity / density                  | : $\leq$ 1.05                        |
| Solubility                                  | : No data available                  |
| Log Pow                                     | : No data available                  |
| Explosion limits                            | : No data available                  |

### 9.2. Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

|                                    |                                                                                                                                                                       |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No reactivity hazard other than the effects described in sub-sections below. Highly flammable liquid and vapour.                                                    |
| Chemical stability                 | : Polymerization can result in formation of solid deposits, even in vapour space. Highly flammable liquid and vapour. May form flammable/explosive vapor-air mixture. |
| Possibility of hazardous reactions | : Not established.                                                                                                                                                    |
| Conditions to avoid                | : Direct sunlight. Extremely high or low temperatures. Open flame. Avoid contact with hot surfaces. Heat. No flames, no sparks. Eliminate all sources of ignition.    |
| Incompatible materials             | : Strong acids. Strong bases.                                                                                                                                         |
| Hazardous decomposition products   | : fume. Carbon monoxide. Carbon dioxide. May release flammable gases.                                                                                                 |

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

|                             |                  |
|-----------------------------|------------------|
| Acute toxicity (oral)       | : Not classified |
| Acute toxicity (dermal)     | : Not classified |
| Acute toxicity (inhalation) | : Not classified |

| styrene, inhibited (100-42-5) |                                                                                                                  |
|-------------------------------|------------------------------------------------------------------------------------------------------------------|
| LD50 oral rat                 | 5000 mg/kg (Rat; Literature study; >6000 mg/kg bodyweight; Rat; Weight of evidence)                              |
| LD50 oral                     | > 6000 mg/kg body weight (Hamster, Male, Weight of evidence, Oral)                                               |
| LD50 dermal rat               | > 2000 mg/kg body weight (OECD 402: Acute Dermal Toxicity, 24 h, Rat, Male / female, Experimental value, Dermal) |
| LD50 dermal rabbit            | 5010 mg/kg (Rabbit; Literature study)                                                                            |
| LC50 inhalation rat (mg/l)    | 11.8 mg/l air (4 h, Rat, Inconclusive, insufficient data, Inhalation (vapours))                                  |
| LC50 inhalation rat (ppm)     | 2770 ppm/4h (Rat; Literature study)                                                                              |
| ATE CA (oral)                 | 5000 mg/kg body weight                                                                                           |

# CLEAR HI-GLOSS ADDITIVE

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

|                                               |                                                                                                        |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <b>styrene, inhibited (100-42-5)</b>          |                                                                                                        |
| ATE CA (Dermal)                               | 5010 mg/kg body weight                                                                                 |
| ATE CA (Gases)                                | 2770 ppmV/4h                                                                                           |
| <b>cobalt(II) 2-ethylhexanoate (136-52-7)</b> |                                                                                                        |
| LD50 oral rat                                 | 3129 mg/kg body weight (Rat; OECD 425: Acute Oral Toxicity: Up-and-Down Procedure; Experimental value) |
| LD50 dermal rat                               | > 2000 mg/kg body weight (Rat; Weight of evidence; OECD 402: Acute Dermal Toxicity)                    |
| ATE CA (oral)                                 | 3129 mg/kg body weight                                                                                 |
| <b>methyl ethyl ketone (78-93-3)</b>          |                                                                                                        |
| LD50 oral rat                                 | 2193 mg/kg body weight (Equivalent or similar to OECD 423, Rat, Male / female, Read-across, Oral)      |
| LD50 dermal rabbit                            | > 10 ml/kg (Equivalent or similar to OECD 402, 24 h, Rabbit, Male, Experimental value, Dermal)         |
| ATE CA (oral)                                 | 2193 mg/kg body weight                                                                                 |

Skin corrosion/irritation : Not classified  
 Serious eye damage/irritation : Not classified  
 Respiratory or skin sensitization : Not classified  
 Germ cell mutagenicity : Not classified  
 Carcinogenicity : Not classified

Reproductive toxicity : Not classified

STOT-single exposure : Not classified

: Not classified

STOT-repeated exposure

Aspiration hazard : Not classified

Potential Adverse human health effects and symptoms : Harmful if inhaled.

Symptoms/effects : Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure. May cause genetic defects. Causes damage to organs.

Symptoms/effects after inhalation : May cause respiratory irritation. Danger of serious damage to health by prolonged exposure through inhalation. Harmful if inhaled.

Symptoms/effects after skin contact : Causes skin irritation.

Symptoms/effects after eye contact : Causes serious eye irritation.

## SECTION 12: Ecological information

### 12.1. Toxicity

Ecology - general : The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.

Aquatic acute : Not classified

Aquatic chronic : Not classified

|                                               |                                                                                                                                            |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>styrene, inhibited (100-42-5)</b>          |                                                                                                                                            |
| LC50 fish 1                                   | 10 mg/l (OECD 203: Fish, Acute Toxicity Test, 96 h, Pimephales promelas, Flow-through system, Fresh water, Experimental value, GLP)        |
| EC50 Daphnia 1                                | 4.7 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Flow-through system, Fresh water, Experimental value, GLP) |
| ErC50 (algae)                                 | 4.9 mg/l (EPA OTS 797.1050, 72 h, Pseudokirchneriella subcapitata, Static system, Fresh water, Experimental value, GLP)                    |
| BCF fish 1                                    | 35.5 (Carassius auratus, Literature study)                                                                                                 |
| Log Pow                                       | 2.96 (Experimental value, OECD 107: Partition Coefficient (n-octanol/water): Shake Flask Method, 25 °C)                                    |
| Log Koc                                       | 2.55 (log Koc, Estimated value)                                                                                                            |
| <b>cobalt(II) 2-ethylhexanoate (136-52-7)</b> |                                                                                                                                            |
| LC50 fish 1                                   | 46.51 mg/l (LOEC; ASTM; 96 h; Pimephales promelas; Flow-through system; Fresh water; Read-across)                                          |
| LC50 fish 2                                   | 54.1 mg/l (LC50; ASTM; 96 h; Pimephales promelas; Flow-through system; Fresh water; Read-across)                                           |

# CLEAR HI-GLOSS ADDITIVE

## Safety Data Sheet

according to the Hazardous Products Regulation (February 11, 2015)

| <b>cobalt(II) 2-ethylhexanoate (136-52-7)</b> |                                                                                                                                          |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| EC50 Daphnia 1                                | 0.212 mg/l (NOEC; ASTM; 48 h; Ceriodaphnia dubia; Static system; Salt water; Read-across)                                                |
| EC50 Daphnia 2                                | 0.605 mg/l (LC50; ASTM; 48 h; Ceriodaphnia dubia; Static system; Salt water; Read-across)                                                |
| BCF fish 1                                    | 1.2 (BCF; 131 days; Seriola quinqueradiata; Static system; Salt water; Read-across)                                                      |
| Threshold limit algae 1                       | 144 µg/l (ErC50; OECD 201: Alga, Growth Inhibition Test; 72 h; Pseudokirchneriella subcapitata; Static system; Fresh water; Read-across) |
| Threshold limit algae 2                       | 32.2 µg/l (NOEC; OECD 201: Alga, Growth Inhibition Test; 72 h; Pseudokirchneriella subcapitata; Static system; Fresh water; Read-across) |

| <b>methyl ethyl ketone (78-93-3)</b> |                                                                                                                                                |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| LC50 fish 1                          | 2993 mg/l (OECD 203: Fish, Acute Toxicity Test, 96 h, Pimephales promelas, Static system, Fresh water, Experimental value, GLP)                |
| EC50 Daphnia 1                       | 308 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Static system, Fresh water, Experimental value, GLP)           |
| ErC50 (algae)                        | 1972 mg/l (OECD 201: Alga, Growth Inhibition Test, 72 h, Pseudokirchneriella subcapitata, Static system, Fresh water, Experimental value, GLP) |
| Log Pow                              | 0.3 (Experimental value, OECD 117: Partition Coefficient (n-octanol/water), HPLC method, 40 °C)                                                |
| Log Koc                              | 1.53 (log Koc, Calculated value)                                                                                                               |

### 12.2. Persistence and degradability

| <b>CLEAR HI-GLOSS ADDITIVE (mixture)</b> |                                                            |
|------------------------------------------|------------------------------------------------------------|
| Persistence and degradability            | Not established.                                           |
| <b>styrene, inhibited (100-42-5)</b>     |                                                            |
| Persistence and degradability            | Biodegradable in the soil. Readily biodegradable in water. |
| Chemical oxygen demand (COD)             | 2.8 g O <sub>2</sub> /g substance                          |
| ThOD                                     | 3.07 g O <sub>2</sub> /g substance                         |
| BOD (% of ThOD)                          | 0.42 (Literature study)                                    |

| <b>Proprietary Resin (TRADE SECRET)</b> |                  |
|-----------------------------------------|------------------|
| Persistence and degradability           | Not established. |

| <b>cobalt(II) 2-ethylhexanoate (136-52-7)</b> |                                                                                                                                   |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Persistence and degradability                 | Readily biodegradable in water. No (test) data on mobility of the substance available.                                            |
| <b>methyl ethyl ketone (78-93-3)</b>          |                                                                                                                                   |
| Persistence and degradability                 | Readily biodegradable in water. Biodegradable in the soil. Biodegradable in the soil under anaerobic conditions. Not established. |
| Biochemical oxygen demand (BOD)               | 2.03 g O <sub>2</sub> /g substance                                                                                                |

| Surface tension                               | 0.064 N/m (20 °C; 1 g/l)                                                                                |
| <b>methyl ethyl ketone (78-93-3)</b>          |                                                                                                         |
| Surface tension                               | 0.024 N/m (20 °C)                                                                                       |
| Ecology - soil                                | Highly mobile in soil. Slightly harmful to plants.                                                      |
| Log Koc                                       | 1.53 (log Koc, Calculated value)                                                                        |
| Log Pow                                       | 0.3 (Experimental value, OECD 117: Partition Coefficient (n-octanol/water), HPLC method, 40 °C)         |

### 12.5. Other adverse effects

Ozone : Not classified  
Other information : Avoid release to the environment.

## SECTION 13: Disposal considerations

### 13.1. Disposal methods

Waste treatment methods : Dispose of contents/container in accordance with licensed collector's sorting instructions.  
Product/Packaging disposal recommendations : Dispose in a safe manner in accordance with local/national regulations. Dispose of contents/container to approved disposal site.  
Additional information : Handle empty containers with care because residual vapors are flammable. Flammable vapors may accumulate in the container.  
Ecology - waste materials : Avoid release to the environment.

## SECTION 14: Transport information

### 14.1. Basic shipping description

In accordance with TDG

#### Transportation of Dangerous Goods

Not regulated for transport

### 14.2. Transport information/DOT

#### Department of Transport

DOT NA No : UN1866  
UN-No.(DOT) : 1866  
Packing group (DOT) : II - Medium Danger  
Transport document description : UN1866 Resin solution, 3, II  
Proper Shipping Name (DOT) : Resin solution  
Contains Statement Field Selection (DOT) :  
Class (DOT) : 3 - Class 3 - Flammable and combustible liquid 49 CFR 173.120  
Division (DOT) : 3  
Hazard labels (DOT) : 3 - Flammable liquid

Dangerous for the environment : No

| DOT Special Provisions (49 CFR 172.102)                          | : 149 - When transported as a limited quantity or a consumer commodity, the maximum net capacity specified in 173.150(b)(2) of this subchapter for inner packaging may be increased to 5 L (1.3 gallons).<br>383 - Packages containing toy plastic or paper caps for toy pistols described as "UN0349, Articles, explosive, n.o.s. (Toy caps), 1.4S" or "NA0337, Toy caps, 1.4S" are not subject to the subpart E (labeling) requirements of this part when offered for transportation by motor vehicle, rail freight, cargo vessel, and cargo aircraft and, notwithstanding the packing method assigned in §173.62 of this subchapter, in conformance with the following conditions:<br>B52 - Notwithstanding the provisions of 173.24b of this subchapter, non-reclosing pressure relief devices are authorized on DOT 57 portable tanks.<br>IB2 - Authorized IBCs: Metal (31A, 31B and 31N); Rigid plastics (31H1 and 31H2); Composite (31HZ1). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 C (1.1 bar at 122 F), or 130 kPa at 55 C (1.3 bar at 131 F) are authorized.<br>T4 - 2.65 178.274(d)(2) Normal..... 178.275(d)(3)<br>TP1 - The maximum degree of filling must not exceed the degree of filling determined by the following: Degree of filling = $97 / 1 + a (tr - tf)$ Where: tr is the maximum mean bulk temperature during transport, and tf is the temperature in degrees celsius of the liquid during filling.<br>TP8 - A portable tank having a minimum test pressure of 1.5 bar (150 kPa) may be used when the flash point of the hazardous material transported is greater than 0 C (32 F). |

## SECTION 15: Regulatory information

### 15.1. National regulations

#### styrene, inhibited (100-42-5)

Listed on the Canadian DSL (Domestic Substances List)

#### Proprietary Resin (TRADE SECRET)

Not listed on the Canadian DSL (Domestic Substances List)/NDSL (Non-Domestic Substances List)

#### cobalt(II) 2-ethylhexanoate (136-52-7)

Listed on the Canadian DSL (Domestic Substances List)

#### methyl ethyl ketone (78-93-3)

Listed on the Canadian DSL (Domestic Substances List)

### 15.2. International regulations

#### styrene, inhibited (100-42-5)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

# CLEAR HI-GLOSS ADDITIVE
